

## International Centre For **Free and Open Source Software**

International Centre for Free and Open Source Software (ICFOSS) is an autonomous organisation set up by the Government of Kerala, India and having the combined mandate of popularising Free and Open Source Software for universal use; consolidating the early FOSS work done in Kerala; and networking with different nations, communities and governments to collaboratively promote FOSS.

**The Freedom Fest 2023** for Knowledge, Technology and Innovation, conceptualised as a large-scale event that brings together all those who stand against inequalities in access to knowledge, will be organised in Thiruvananthapuram during 12th – 15th August 2023 as an initiative of the Government of Kerala. ICFOSS is also the official partner of the event. Join us at "The Freedom Fest 2023" if you share a passion for knowledge liberation! This event is open to all – academic institutions, research organisations, development agencies, private institutions, NGOs, entrepreneurs, start-ups, and others. We expect you to participate actively by proposing exhibition stalls, mini-conferences, scientific talks, product showcases, tutorials, information booths, and activity corners.

Let us work together to ensure free knowledge for all...

- Five day interactive event on different knowledge sectors.
- Forums for the formation of a Knowledge Society.
- Activities for knowledge based social progress.
- Renowned experts across different disciplines including Nobel Laureates.

For more event details visit: <https://freedomfest2023.in>
