

## Empowering Communities through OpenStreetMap

### OSM Kerala's Informative Session for Beginners

August 13, Venue 4, Libre Lounge, Tagore Theatre, Trivandrum

OpenStreetMap (OSM) Kerala, organising an insightful session aimed at introducing the power and potential of OpenStreetMap to newcomers. The session was skillfully facilitated by OSM Kerala's seasoned trainers and contributors, including Ark Arjun, Jaisen Nedumpala, Saritha, and Akhilan.

The session provides attendees with a comprehensive overview of OpenStreetMap, its significance in mapping the world, and its transformative impact on various sectors. OSM Kerala senior volunteers will share their journey and experiences, highlighting the local contributions that have brought Kerala's geography to life on the map. We believe that every individual can contribute to creating a more detailed and accurate map of the world. This session is tailored for beginners who are eager to explore the realm of OpenStreetMap and its diverse applications. OpenStreetMap is not just a map; it's a community-driven movement that empowers people to participate actively in shaping their environment.

The session will showcase how even small contributions can lead to a significant impact. OSM Kerala will introduce its various platforms for community interactions, providing resources and support to join the journey of mapping the world collaboratively.

*OpenStreetMap Kerala is a vibrant community of mappers and enthusiasts passionate about open mapping. The community aims to bring local geographic knowledge to the global map, enhancing navigation, emergency response, and various developmental projects around OSM in Kerala.*
